EDUCATION

Howard University

Bachelor of Science in Computer Science, Minor in Business Administration

GPA: 3.63/4.0

Washington, DC

May 2028

WORK EXPERIENCE

Research Assistant

June 2026 – August 2026

Matthew Henson Fellow, Kastner Research Group

University of California San Diego

- Joined a research effort building a proof-of-concept 10–25 device smartphone cluster using Kubernetes and Docker, exploring discarded phones as low-cost distributed compute for future large scale systems
- Assisted with the migration of phone operating systems off a legacy environment to a new standard mainline Linux stack
- Flashed and tested OS images across nodes, verifying clean transitions from an Android kernel/ext4 to a mainline kernel with Panfrost GPU drivers and Btrfs
- Centralized scattered reference materials and wrote documentation and technical guides so future contributors could pick up the work

PROJECTS

The Lookbook | *React Native, Next.js, Typescript, Tailwind, SQLite, Firebase*

July 2025 – Present

- Shipped an iOS app that lets users catalog their wardrobe and build outfits virtually, with 500+ active users and a 5.0 App Store rating
- Designed a local SQLite database supporting 1,000+ clothing items per user with offline access and fast query times.
- Built a Next.js landing page for app downloads and community signups, with data stored in Firebase
- Collaborated with a partner to maintain and continue development on the app

Volunteer Portal | *Next.js, Tailwind CSS, Supabase*

Aug 2025 – Present

- Built an end to end platform where volunteers browse and sign up for opportunities, track hours, and view upcoming events, and nonprofits post opportunities, manage volunteers, and approve hours
- Designed a Supabase database schema to handle volunteer tracking, hours logging, and role-based permissions across multiple organizations
- Cut volunteer onboarding time by 12 minutes per organization by streamlining account setup and opportunity discovery

ASL Detection System | *Python, MediaPipe, OpenCV, Scikit-Learn*

February 2026

- Built an ASL detection system using computer vision that recognizes hand landmarks to identify letters and phrases with 90% accuracy
- Connected ElevenLabs API to convert recognized signs into spoken audio in real time
- Placed 3rd overall and won Best Use of ElevenLabs at a hackathon

LEADERSHIP EXPERIENCE

Founder & Executive Director

August 2025 – Present

It Starts With Us

Washington, DC

- Founded a student-led volunteer organization that has served 100+ students through tutoring and mentorship programs across 4 community partnerships
- Recruited and managed a team of 50+ volunteers, coordinating operations and delivering 200+ hours of service to local youth programs
- Led partnership development and program execution to expand educational and mentorship access for underserved youth

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, C++, SQL, HTML/CSS

Frameworks & Tools: React Native, Next.js, Tailwind CSS, MediaPipe, OpenCV, Scikit-Learn, Git, Docker, VS Code

Databases & Cloud: PostgreSQL, SQLite, Firebase, Supabase, Kubernetes
